

This figure is a heatmap visualization of a 37x37 matrix. The x-axis and y-axis are both labeled from 0 to 35. The color scale on the right ranges from dark purple (low values) to yellow (high values). The matrix exhibits a strong diagonal band of high values, with the highest values (yellow) concentrated along the main diagonal and slightly off-diagonal elements, particularly around the center and corners. The off-diagonal elements show a decaying pattern of values as they move away from the diagonal.
